Re: Letter of Recommendation for ProGov Solutions

Dear Mr. Rubenstein:

I am writing today to thank you for all of your assistance in updating and maintaining ASM Affiliates' General Services Administration (GSA) environmental services schedule. In researching firms to assist us in obtaining our original Master Services Agreement with GSA, ASM identified and used another contractor. While I found them to be helpful, their responsiveness and follow through nowhere compare to the level of service we received from ProGov Solutions. Your firm was very helpful, thorough, and provided a level of customer service that is rare to find these days. I never waited more than 12 hours for a response to any inquiries with your firm and found you and your staff to be extremely engaged and genuinely interested in assisting us. We successfully obtained an updated contract with the Government as a result of your hard work and diligence.

I want to thank you very much for providing us with such a high quality of service. I would highly recommend ProGov Solutions to any firm that is pursuing a GSA services schedule.

Thank you,

Catherine Ann Wright  
Vice President
